

FLAMING ACRES FARM

2024 Dahlias & Beyond

The flower photos in this document represent the 300 different kinds of dahlias which will be planted in the Flaming Acres viewing gardens in 2024. The information about each flower describes its characteristics as a plant for the garden and as a cutting flower.

In 2024, 2025 & 2026, we will have dahlias available for cutting in our viewing gardens and plan on harvesting the tubers and replanting more & more dahlias each year.

In 2027, we plan to offer whatever tubers we will not need for planting, to gardeners to purchase online or on the farm as well as continuing to offer dahlias for u-pick summer cutting.
