

Where Fun Grows

We are growing 35 varieties of Sunflowers varying in height from 24 inches to 14 feet with colors ranging from white, cream, lemon, yellow, green, orange, red, purple, pink, purple, burgundy, brown, and black. Since we harvested our own Zinnia seeds in 2023, the color variations from cross pollination will be fun and surprising for everyone. We are adding a garden of 300 different varieties of dahlias which will bloom in late summer and be a feast for the eyes. We have selected dahlias that range in every imaginable size, color, and type. Our garden boasts over 400 beautiful lavender plants that continually bloom throughout the early summer and into the fall. At Flaming Acres, our visitors will be delighted with the wonderful array of flowers. Our complimentary garden flowers include Sweet Peas, Snapdragons, White Dill, Dara, Baby's Breath, Poppies, Yarrow and more.
